Subject: Fw: Week 1 to 5 data w non-detects removed, Key as seperate document

Jennie -

Sorry for the delay. Here's the data table with the key removed.

We also included a separate PDF of the most recent key. Please note that the key was updated throughout the process as necessary. The updated key is now included with the individual reports and the compilation posted on the website. The one posted individually on 3/36/12 has been modified. Also - not all the info in the key applies to the reduced data table which is limited to detections.

Please call me on my cell with any questions.
